Production-Inventory System Analysis

Sanjay Sharma
NITIE, Mumbai

About the Book: A production-inventory system deals with the procurement of input items and the production of finished items at a desired quality level. This book is focused on the mathematical modeling of such systems considering deterministic situations. In most of the cases, total relevant cost is minimized after formulating the problem. In addition to a traditional production-inventory system, the discussed models are also useful for the following manufacturing environment:

- MRP
- JIT
- Supply chain

An attempt is made to bridge the gap between the existing books on industrial engineering/operations research and the recent advances in this specialized area. Emphasis is on incorporating realistic situations and therefore an exposure to these models will also help in generating different projects at UG/PG level. The book is a reference source for researchers/practitioners in this area, and PG. students of engineering and management disciplines including operations research, inventory/production planning, etc.

Steel Wire Drawing in Practice

R.S. Ramachandran

About the Book: In wire drawing industry in general and in steel wire drawing industry in particular which boasts of one lakh uses of wire in our daily life they are very few books on steel wire. They can be counted on finger tips – "Wire" by Anton Pomp which has gone out of print, "Galvanizing" by Henrik Bablik which also shares the same fate, and 'Steel finger tips – "Wire" by Anton Pomp which has gone out of print, daily life they are very few books on steel wire. They can be counted on finger tips – "Wire" by Anton Pomp which has gone out of print.

Ishwar Dayal on Management
6 Vol. Set

Ishwar Dayal

This series of following six volumes on Management best encapsulates the essence of understanding any organisation of today:

Volume I: Organisation & Administration
Volume II: Organisational Development & Change
Volume III: Behavioural Science Applications
Volume IV: Education & Training
Volume V: Human Resources in Organisations
Volume VI: Public Administration & Public Enterprises.

Each volume is supported by Prof. Dayal’s teaching, consulting and research experiences and the empirical data encompassing on many aspects of management.

3. The Circular Flow of Income and Expenditure
5. Social Accounting or National Accounting
PART THREE : NATIONAL OUTPUT AND EMPLOYMENT
6. Unemployment and Full Employment
7. Theory of Employment
8. The Consumption Function
9. The Theories of Consumption Function
10. The Investment Function
11. The Multiplier and the Accelerator
12. Post-Keynesian Developments in Investment Theory
13. Saving-Investment Equality
14. Keynes Theory of Income and Employment and Under-developed Countries
PART FOUR : THEORY OF MONEY
15. Evolution and Functions of Money
16. The Determination of Value of Money: Transactions Approach
17. The Determination of Value of Money: The Keynesian Approach
18. The Neutrality and Non-Neutrality of Money
19. The Real Balance Effect
20. The Supply of Money
21. Creation of Credit
22. Central Banking: Functions and Credit Control
PART FIVE : THEORY OF INTEREST
23. The Demand for Money
24. Theories of Interest Rate
25. Term Structure of Interest Rates
PART SIX : THEORY OF PRICES
27. Inflation, Deflation and Reflation
28. Price Changes and Level of Unemployment (Phillips Curve and Stagflation)
29. Theories of Trade Cycles
30. Samuelson's Multiplier-Accelerator Interaction Model of Trade Cycle
31. Hicks Model of the Trade Cycle
32. Kaldors Model of the Trade Cycle
PART SEVEN : MACROECONOMIC POLICY
33. Objectives of Macroeconomic Policy
34. Monetary Policy: Objectives, Targets and Indicators
35. Operational Aspects of Monetary Policy
36. The Liquidity Theory of Money
37. Fiscal Policy for Stable Growth
38. Fiscal Policy for Economic Development
39. Efficacy of Monetary and Fiscal Policies
40. Coordination between Instruments and Objectives of Monetary and Fiscal Policies
41. Monetarism Versus Keynesianism
42. Non-Banking Financial Intermediaries (NBFls) Appendix-I—A Note on Supply-Side Economics
Appendix-II—A Note on New Classical Macroeconomics, Select Bibliography

Macroeconomic Theory
10th Edition
T.N. Hajela

Contents:

9788180522826 • 738 (Pb) • 2016 (R) • ₹ 495.00

Managerial Economics and
Business Decisions
B.N. Ghosh

Contents: 1. Conceptualizing Managerial Economics,
2. Alternative Theories of Firms and Decision Rules,
3. Demand-Supply Construct,
Elasticities and Demand Forecasting,
4. Analysis of Production,
5. Theory of Costs and Break-Even Analysis,
6. Pricing Strategies and Managerial Decisions,
7. Market Structure, Output and Pricing Decisions,
8. Management of Wages and Profits,
9. Market Failure, the Government and Collective Failure,
10. Macroeconomics: Some Stylized Facts,
11. National Income Analysis,
12. Social Accounting,
13. Aggregate Supply and Aggregate Demand,
14. Investment Decisions Under Risk and Uncertainty,
15. Financial Markets,
16. The Multiplier and the Accelerator,
17. Keynesian Model of Income Determination and the Theory of Liquidity Preference,
18. Quantity Theory of Money,
19. Theories of Inflation and Deflation: Issues and Policies,
20. Theories of Business Cycles and Stabilizations Policies,
21. Fiscal Policy and the Budget,
22. Taxation,
23. Monetary Policy,
24. Monetary Management and Techniques of Credit Control,
25. Exchange Rate Management,
26. Foreign Trade and Commercial Policy,
27. Balance of Payments and Adjustment Policies,
28. Management of International Liquidity,
29. Liberalization and Industrial Policy in India,
30. Globalization and Business

## Contents:

- Foreword, Preface, Acknowledgements
- 1. Introduction to Microbiology
- 2. Tools Of Microbiology
- 3. Techniques of Microbiology
- 4. Culture of Microorganisms
- 5. Isolation, Purification and Identification of Bacteria
- 6. Maintenance and Storage of Bacterial Strains
- 7. Laboratory Exercises to Study Bacteria
- 8. Study of Bacterial Growth
- 9. Study of Effect of Environmental on Bacterial Growth
- 10. Study of Control of Microbial Growth by Antimicrobial Agents
- 11. Study of Bacterial Genetics
- 12. Water Microbiology
- 13. Soil Microbiology
- 14. Food Microbiology
- 15. Milk Microbiology
- 16. Study of Viruses
- 17. Study of Fungi
- 18. Study of Cyanobacteria
- 19. Study of Bacterial Diseases in Plants
- 20. Study of Medical Microbiology and Immunology
- Good Laboratory Practices, Annexure, Index.

**ISBN: 9788180521430** • 460 (Pb) • 2018 (R) • ₹ 495.00

---

## Contents:

- 1. The Cell: A Basic Unit of Life
- 2. Cell Wall and Cell Membrane
- 3. Cytoplasmic Organelles
- 4. Non-living Cytoplasmic Inclusions or Ergastic Substances
- 5. The Structure and Functions of Nucleus
- 6. The Chromosomes and Nucleosomes
- 7. Cell Cycle and Cell Division
- 8. Mendelism: The Nuclear Inheritance
- 9. Interaction of Genes (Modifications of Mendels Laws)
- 10. Linkage and Crossing Over
- 11. Chromosomal Aberrations
- 12. Polyploidy
- 13. Extra-nuclear Inheritance
- 14. Sex Determination and Sex Reversals
- 15. Human Genetics
- 16. Microbial Genetics
- 17. Mutations
- 18. Concept of Gene (A Retrospective Approach)
- 19. Organisation of Genes

**ISBN: 9789386761231** • 372 (Hb) • 2018 • ₹ 1995.00

Environment and Ecology
2nd Edition
S.N. Pandey
S.P. Misra

Contents:
UNIT I Multidisciplinary Nature of Environmental Studies
UNIT II Natural Resources:
1. Energy and Environment
2. Environment
3. Atmosphere
4. Air Pollution
5. Water
6. Water Pollution
7. Marine Pollution
8. Soil
9. Soil Pollution
11. Noise Pollution
12. Environment and Health
13. Climate Change
14. Biodiversity
15. Environmental Management
16. Some Case Studies
17. Towards Cleaner Future
Glossary
Appendices

Manual of Environmental Pollutants Estimations
Air, Water and Soil

V.K. Ahluwalia

Environmental Science
2nd Edition
V K Ahluwalia
Sunita Malhotra

Contents: 1. Energy and Environment
2. Environment
3. Atmosphere
4. Air Pollution
5. Water
6. Water Pollution
7. Marine Pollution
8. Soil
9. Soil Pollution
11. Noise Pollution
12. Environment and Health
13. Climate Change
14. Biodiversity
15. Environmental Management
16. Some Case Studies
17. Towards Cleaner Future
Glossary
Appendices
Chemistry of Heterocyclic Compounds
Rakesh Kumar Parashar
Beena Negi

Contents:
1. Introduction and Nomenclature
2. Importance of Heterocyclic Compounds
3. Three Membered Heterocyclic Compounds with One Heteroatom
4. Four Membered Heterocyclic Compounds with One Heteroatom
5. Five Membered Heterocyclic Compounds with One Heteroatom
6. Bicyclic Ring Systems Derived from Pyrrole, Furan and Thiophene
7. Five Membered Heterocyclic Compounds with Two Heteroatoms
8. Bicyclic Ring Systems Derived from 1,2-Azoles and 1,3-Azoles
9. Six Membered Heterocyclic Compounds with One Heteroatom
10. Bicyclic and Tricyclic Ring Systems Derived from Pyridine
11. Six Membered Heterocyclic Compounds with Two Nitrogen Atoms
12. Bicyclic Ring Systems Derived from Pyridazine, Pyrimidine and Pyrazine
13. Seven Membered Heterocyclic Compounds

9789385462924 • 400 (Pb) • 2017 (R) • ₹ 495.00

Chemistry of Natural Products
Amino Acids, Peptides, Proteins and Enzymes
V K Ahluwalia
Lalita S Kumar
Sanjiv Kumar

Contents:

9788180520891 • 260 (Pb) • 2017 (R) • ₹ 395.00

Analytical Chemistry
Basic Concepts
Priti Malhotra

Contents:
1. Statistical Methods of Analysis
2. Sampling
3. Spectroanalytical Techniques
4. Ultraviolet and Visible Spectral Methods
5. Infrared Spectroscopy
6. Atomic Absorption Spectroscopy
7. Atomic Emission Spectroscopy
8. Thermal Methods
9. Electroanalytical Methods
10. Coulometry
11. Conductometric Methods
12. Solvent Extraction
13. Chromatography
14. Thin Layer Chromatography
15. Column Chromatography
16. Gas Chromatography
17. High Performance Liquid Chromatography
18. Ion Exchange Chromatography
19. Exclusion Chromatography
20. Electrophoresis

9789385462948 • 364 (Hb) • 2016 • ₹ 1495.00

Nuclear Chemistry
2nd Edition
Maheshwar Sharon
Madhuri Sharon

Contents:
1. Radioactivity
2. Nuclear Reaction
3. Interaction of Radiation with Matter
4. Ionization Counters
5. Scintillation Counter
6. Non-conventional Detection Techniques
7. Sample Preparation for Counting
8. Factors Affecting the Counting Efficiency
9. Identification of Radioactive Isotopes
10. Statistics of Counting
11. Health Hazards and Protection
12. Radiochemical Separation Techniques
13. Hot Atom-nuclear Reaction

9789386761552 • 300 (Hb) • 2018 • ₹ 1995.00
Comprehensive Coordination & Organometallic Chemistry
Devender Singh
Raman Kumar Saini
Shri Bhagwan Kuldeep

Contents:
Introduction of Coordination Compounds and their Nomenclature • Isomerism in Coordination Compounds • Bonding Theories of Coordination Complexes-I (Werner, VB and CFT) • Bonding Theories of Coordination Complexes-II (Ligand Field Theory) • Electronic Spectra-I (LS coupling) • Electronic Spectra-II (Orgel and Tanabe-Sugano Diagram) • Magnetic Properties of Transition Metal Complexes • Reaction Mechanism in Coordination Complexes-I • Reaction Mechanism in Coordination Complexes-II (Ligand Substitution Reaction in Square Planer Complexes and Electron Transfer Reactions) • An Introduction to Organometallic Compounds • Organometallic Compounds and their Properties-I (Metal Carbonyls and Nitrosyls) • Organometallic Compounds and their Properties-II (Dinitrogen, Phosphine and Dioxygen Metal Complex). • Metal Clusters

About the Series
This series of short textbooks prepared by well-known authors is an attempt to deliver the vast knowledge of chemistry in a more concise yet comprehensive format for easy understanding and learning by the users. Need for this type of material has been strongly felt by the students studying chemistry at UG and PG levels for quite sometime and hence this product.

Each title of the series is independent by itself and presupposes only a very little fore-knowledge for use. The content has been developed following a basic undergraduate and plus level, avoiding any sophistication and show of expertise.

Salient Features
The subject-matter presented in each book, though concise, has adequate coverage of this subject. The important points wherever necessary have been highlighted. Complex portion of the content has been interpreted in an easy to grasp manner. Long sequences of references of reactions have been summarized in short run flowcharts. Would be ideal for preparation of competitive examinations like NET, GATE and Civil Services.

About the Book:

Ane's Encyclopedic Dictionary of Library & Information Science

The Encyclopedic Dictionary of Library and Information Science is the first of its kind which has been compiled keeping in view the current needs of the library and information science students and practitioners. The work becomes more relevant today with drastic changes in the field brought about by the latest advancement in information technology and its application in gathering, recording, retrieving and dissemination of information for all types of human activities. The dictionary has been specially designed for the students of Library and Information Science, librarians and Information Professionals.

Emerging Trends and Issues in Scientometrics, Informetrics and Webometrics

The book discusses the current status and advancements of informetric, scientometric and webometrics theories, concepts and indicators. Recent developments include Wikimetrics, article-level metrics, altmetrics etc, which have been presented in the book. The papers published are being selected on the multiple issues relating to Scientometrics, Informetrics and Webometrics. These are the most recent scientific knowledge known and have been divided into seven sections, namely - Science Policy and Collaboration; Mathematical Models of Communication and Collaboration; Quantitative Analysis of S&T Innovations; Evaluation Indicators; Collaboration in Science and Technology from both Quantitative and Qualitative Points of View; Data Analysis and Data Mining and Bibliometric Research Tools and Studies.
About the Book:
Book lovers, writers and library professionals are apprehensive because of doomsters’ forecasts like ‘death knell of libraries’, ‘epilogue of library profession’ and ‘expiration of paper society’.

Bihar
Untold Growth Story
Indra Sen Kumar

About the Book:

The present book titled Bihar: Untold Growth Story is, in a sense, a treatise on socio-economy of Bihar highlighting the state's glorious, remote and immediate past with the present terrible economic position indicating things to come in the state suggesting several measures towards realizing the goal of economic and social accomplishment.

The book has taken care of the latest issues tormenting the state authorities and the economist pertaining to rural and urban poverty, migration of Bihari labour force, corruption and criminalisation proving to be a stumbling block in development as also the debated aspect of improving the states financial position by way of special package or special status. The book though highlights achievements of the state, brings out the myths of these, laying down that the development process is characterized by truths and half truth very boldly observing and finally suggesting that accomplishment is not the same thing as achievements, nor is the fact that what is apparent is real.
