The Power of Your Subconscious Mind

International
Bestseller

Dr. Joseph Murphy

About the Book

This book '*The Power of Your Subconscious Mind*' is a bestseller and one of the most brilliant spiritual self-help works of all time that has helped people lead a healthier and happier life. The spiritual attributes and an amazing array of practical techniques help the body to train itself to control the all important aspects of leading an active, fearless and calmer life style while improving the physical well-being, inter-personal relations and finances. '*One can change one's destiny, principally by focusing and redirecting this miraculous energy*' is the underlying mantra of the

author.

Panorama of Indian Festivals

Vivek Rana

About the Book

India is a secular country where festivals from all sections of the society are celebrated with the same fervor and enthusiasm. The festivals of Hindus, Muslims, Christians, Sikhs and all other religions are celebrated by a large cross-section of the society. This book makes an attempt to discuss the importance, religious beliefs and the celebrating styles of these festivals.

Climate Change

Exploring Global Opportunities and Challenges

V.K. Ahluwalia

About the Book

Climate and weather have been critical to the story of human development. While climate change is clearly a global emergency requiring global solutions, there is increasing understanding of the diverse challenges and opportunities that local communities face in strengthening resilience to its impacts and implications. This book explores the impact of climate change and identifies the opportunities and challenges of climate change. It also considers the philosophical basis of the climate challenge.

Women Empowerment in India

Approaches and Strategies

Shilpa Sharma

About the Book

The subject of empowerment of women is becoming a burning issue all over the world including India since last few decades. Women Empowerment itself elaborates that Social Rights, Political Rights, Economic stability, judicial strength and all other rights should be also equal to women. There should be no discrimination between men and woman. Women should now there fundamental and social rights which they get once they born. The present book analyses the women empowerment in India in an easy to go through and comprehend language. I hope it would be more fruitful for readers and provide them with authentic

information and insight into the subject.
